If Clothes Go Bad Complain.

We had a man complain the other day that his suit and pants were given to him by the tailor, and that he had to pay for them. He said that the tailor had given him a suit and pants that were not worth the money. He said that the tailor had given him a suit and pants that were not worth the money. He said that the tailor had given him a suit and pants that were not worth the money.

Albert Colton Notes.

The first meeting of the Polymath Society for the term was held on Saturday evening in Massy Hall. The programme presented was varied and interesting, consisting of readings, recitations, vocal and instrumental music, all of which were exceedingly well rendered. The vocal selections of Mrs. Nash were especially fine. The features of the evening were the recitation of Jean Ingelow's "Seven Years" and the recitation of the poem "The Old Man and the Sea" by Miss Gardner and the young ladies are to be congratulated on the success of the evening's entertainment, which was greatly appreciated by the audience.

A PERMANENT CURE.

A Letter That Proves the

Value of Pain's Colery

Compound.

A Medicine That Makes Peo-

ple Well and That Keeps

Them Well.

Fergus, Ont., Sept. 22, 1896.

Gentlemen:

The following testimonial, relative to

your Pain's Colery Compound, will be

found of interest to all who remember my testi-

monial given more than two years ago.

This long interval has afforded me ample

opportunity for judging of the effects of the

medicines.

I have always valued the duration of a

cure more than the temporary relief. It is

difficult, if indeed it is possible, to get a

medicine that will produce a permanent

good effect, so much being dependent on

right use and dietary regulations. We

must follow the directions of the medicine

and consider the quantity as well as the

quality of food we eat. I am convinced

that your Pain's Colery Compound is

properly used and afforded fair play, it will

do good work.

I am just seventy years old, since I took the

Pain's Colery Compound, I feel as well as

an old man can feel in his condition of

health. I can think of no other cause than

use of the Compound. I am, gentlemen,

Yours truly,

JOHN IRELAND.

HECTOR CAMERON DEAD.

The Noted Counselor and Politician Dies

at Colborne.

Hector Cameron, Q.C., ex-M.P., died at

Colborne Sunday evening. Deceased was

a leading counsel in the city of Toronto,

and was born in North York, Ontario,

in 1837 by James J. A. Barron, occupied quite

a prominent place in the Conservative

party in the House of Commons. He was

identified as Solicitor with a company or

agency for the colonization of Antiochia,

and was a member of the Ontario Bar.

He was a man of high character, and

having to do with capitalists of the old

country.

He retired from politics but devoted him-

self entirely to the business interests which

have been placed in his hands. His death

will leave a very considerable void in

commercial legal circles in Toronto. He

was 54 years of age.

The Month for Coloring and

Recreating.

Diamond Dyes Make Old Things

Look Like New.

This month thousands of women will be

coloring their hair, coats, vests, hats,

knitting yarns, carpet rag, sheepskin

bags, etc.

The dying operation is an important

one, and demands much care. The great

essential is to get the right dyes—colors

that are bright, fast and lasting.

## UNITED STATES ELECTIONS.

Results Rather More Favorable to Bryan.

Several States Yet in Doubt—No Question as to McKinley's Election—Republican in Congress—Hearst's Chairman Hoping Against Hope.

CHICAGO, Ill., Nov. 4.—Early morning returns from the Western States make no change in the result as indicated in last night's dispatches, excepting in Nebraska. It appears reasonably certain that Bryan has carried Ohio State by a handsome majority. Only meagre returns have been received from Kansas, North Dakota, South Dakota, California, Oregon and Washington, leaving the result in those States in doubt. The vote is apparently very close, and it may be many hours before a definite estimate can be made.

New York, N.Y., Oct. 4.—Returns received this morning indicate that the electoral vote of Kansas will be cast for Bryan. This gives Bryan 163 and McKinley 208, and leaves 30 votes in doubt. Returns and reports received up to noon show some changes in the character of the Congressional delegations from the various States, but the total strength of the several parties is not materially changed from that sent out last night. They now probably number, Republicans, 229; Sound Money Democrats, 2; Democrats, 105; Silver Republicans, Fusionists and Populists, 24.

A despatch from Chicago says that Chairman Jones, of the National Democratic Committee, refuses to believe that McKinley's plurality is sweeping, and has hopes that Bryan may yet be elected.

Cannot Use the Wires.  
General Manager Hays of the Grand Trunk Railway has issued an order to lighten the work of telegraph operators. He says the wires have been burdened with many unnecessary telegrams, and that the business which would be promptly executed is delayed, and the co-operation of all the officials on the road is asked to restrict the use of the wires while maintaining the effectiveness of the road.

Number of the members of Lyford Lodge S.O.E.B.S. met in the ante room of their Lodge last night and took advantage of Bro. H. F. Ketcheson's presence in the city to give him a royal welcome.

Several speeches were made which testified to Bro. Ketcheson's worth, and regretted his removal from this city. After wishing him success in his new field of labor the meeting broke up.

## SOME INTERESTING CASES.

The Assizes Docket Being Rushed Along by Judge Ross.

Indictment in the Action of Harding vs. O'Flynn. A sensational indictment was filed yesterday in the Assizes by Judge Ross against a school teacher charged with assault upon a pupil.

The court has attracted large numbers of people during the past two days, by reason of the nature of the cases being tried, but at no time was the attendance larger than yesterday afternoon, when a sensational case was taken up. Judge Ross, in charging on with the docket of cases, but it is a question if he will be able to finish the jury list this week.

In the case of Harding vs. O'Flynn judgment was given yesterday afternoon. The case was dismissed with costs. As against the defendant, H. D. O'Flynn, judgment was given for \$5 and Division Court costs, the Judge holding that plaintiff had recovered in Division Court, and the plaintiff to pay costs of the case.

H. H. O'Flynn, C. E. Lyons, solicitor; G. Guss Porter, counsel for plaintiff, E. O'Flynn for defendant.

A SCHOOL CASE.  
Casey vs. Frappo.—This was an action brought by William Casey, of the Assizes, against Joseph Frappo, a school teacher of the River Valley school, No. 18, Sidney, for assault upon plaintiff's son, Arthur Casey. Duffy was teaching at the Bethel school in Thorvald when the assault was committed. Duffy has taken place in March, 1895. Plaintiff claims that he was a violent assault upon his son, and that he was injured about the face, neck and back, and shook him violently. Plaintiff also claims that his son was much bruised and injured, and was sick and ill and confined to the house for some months afterward. Plaintiff also claims he was put to great expense for medical attendance and nursing and had been permanently injured.

Defense claims the boy Arthur Casey was dull and inattentive at his studies and that he had a right to administer reasonable punishment. Defense also claims that the illness of the boy was due to the injury received in school but was due to the nature of the case, and that the boy, plaintiff, Charles, Williams & Morton for defendant, Casey in progress as we want to press.

A SEDUCTION CASE.  
Harrison vs. Trenton.—This was an action for seduction brought by Edward Harrison, of the Township of Huntingdon, against William Trenton of the same township, for seducing his daughter, Mabel Irene Harrison. Fifths, wife died in 1882, leaving him two children. The defendant, who is uncle of plaintiff's children, offered to accept and care for the daughter and in 1890 Miss Harrison went to live with them. The plaintiff alleged her uncle seduced her about a year ago. Plaintiff's daughter is a young woman about eighteen years of age and rather prepossessing appearance and the defendant is a man nearly thirty years of age. The young woman swore her uncle was seduced by her uncle while he was away from home, but became somewhat mixed as to dates on cross-examination. Defense denied the charges and attempted to prove that Harrison was not of chaste character after the time of the alleged seduction. Miss Harrison gave birth to a child, the father of whom she alleged was a son of the defendant. The defendant swore he was not the father of the child, and that the young woman was quite chaste and at that time bordered on the sensational. Mr. Northrup on behalf of the defendant, for a non-suit, after the evidence was in, but the judge allowed the case to go to the jury, reserving his judgment on Mr. Northrup's motion.

Mr. Northrup made a lengthy and eloquent plea for his client, and after the evidence and analyzing it very fully.

Mr. Porter, for the plaintiff, dwelt at some length on the enormity of the offense charged, and declared most emphatically that either the young woman or the defendant was guilty of a crime, and that the case was one of the most serious of the kind.

The Grand Jury brought in a true bill in the case of Queen vs. William Kemp this forenoon.

REV. DR. TALMAGE DELIVERS AN  
OTHER SEASONABLE SERMON.

"We All Go to the Leaf." The story of the Woods. How the Leaf is the Life. A Great Variety of Leaves. Leaves From Youth to Age.

Washington, Nov. 1. The season of the year is now autumn. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

It is an hour for us to understand the meaning of the autumn. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

The wisdom, goodness and power of God are shown in the autumn. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

There is a lesson in the autumn. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

The autumn is a time of beauty. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

The autumn is a time of hope. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

The autumn is a time of peace. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

The autumn is a time of joy. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

The autumn is a time of love. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

The autumn is a time of faith. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

The autumn is a time of hope. The leaves are falling. The woods are changing. The leaves are the life of the woods. The leaves are the life of the woods. The leaves are the life of the woods.

Anybody with declining health of their daughters. No many are cut off by consumption in early years that there are many who are in the early stages, when not beyond the reach of medicine. Hood's Sarsaparilla will restore the health and vitality of the blood and this gives good results.

"It is but just to write about my daughter, Cora, aged 18, who was completely run down, dwelling that had tired feeling, and friends said she would not live over three months. She had a leaden complexion and the following letter was written by her mother, Mrs. J. W. Hudson, of Belleville, N. J.:

"I will say that my mother has not stated my case in as strong words as I would have done. Hood's Sarsaparilla has truly cured me, and I am now well."

The Only One  
To Stand the Test.

Rev. William Cope, whose father was a physician for over fifty years, in New Jersey, and who himself spent many years preparing for the practice of medicine, but subsequently entered the ministry of the M. E. Church, writes: "I am glad to testify that I have had analyzed all the sarsaparilla preparations known in the trade, but

## SUMMARY DISMISSALS.

Hon. W. J. Macdonald discusses the Subject in the Senate.

Without Trial, Without a Hearing and Without Evidence—Reverend. Not Justice.

When the subject of the summary dismissal of public officers by the Government was brought up in the Senate on a motion of Hon. Mr. Ferguson,

Senator Macdonald said: If the hon. gentleman does not intend to go on with his motion, I wish to speak about these poor people who were dismissed without trial, without a hearing and without evidence.

Color in Room Decoration.

The lighter shades of red and violet  
should be avoided by ladies in the crea-  
tion of a drawing room or boudoir,  
for the complimentary effect will be to  
give a green or orange hue to their  
complexions. Pale green for the walls,  
by contrast, will help the color of the  
furniture. In a large room, deep  
crimson is an ideal color, becoming to  
an assemblage of colors of various  
shades.

Often one can make a room appear  
larger than it is by having the shades  
of color become paler from the central  
chairs to the walls.

In a large room it is usually well to  
have the walls of a color complementary  
to that of the furniture. In a small  
room it is well to avoid the same color  
of blue, but in a small room.

In "soft-lights" tones or shades of the  
same color, a light tint on a dark  
ground may be used without detriment  
to the decoration, but a dark ornament on a  
light ground requires to be outlined  
with a still darker tint.

Colors for connecting rooms: Dark peac-  
blue would harmonize with lemon  
yellow and citrine; dull red with blue  
to turquoise, and pale sage green.  
Chocolate or light brown goes well with  
pale blue, and dark olive or sage green  
will form charming contrasts with  
pink, pale apricot yellow or tur-  
quoise or Nile blue—Amateur.

Bryan's Bookkeeping Record.

Mr. Bryan's activity and oratory  
have been among the most remarkable  
features of the Presidential campaign.  
He made 150 speeches in 107 days, in  
villages of 27 states, and traveled 18,331  
miles. It is estimated that he traveled  
twice as many miles and made three  
times as many speeches as all the Presi-  
dential candidates of all the parties  
since the beginning of the Government.  
He spoke to over 2,000,000 people,  
and in doing so, used all gold, nearly 900,  
000 words.

Costly Feathers.

White there are probably hundreds of  
men who make a business of hunting  
birds for their feathers, the best  
known of the feather hunters in the  
west is Hamilton Smith, the white chief  
of the Copepaw Indians. His reservation  
includes most of the land on  
Madeline bay. In the marshes of this  
bay, about water, he has a great  
number of herons and cranes in large  
numbers. Smith reached San Francisco a  
week or so ago with several bags of  
feathers, chiefly egret. The bag  
weighed less than four pounds, but  
he sold it for \$100. The feathers of  
the heron, Mr. Smith says, will yield  
after feathers worth \$100. The  
feathers are profitable than egret, there  
are more than 100,000 of them. There  
is only a small part of the country  
where it is profitable—Portland  
Oregonian.

Mr. John Morley Addresses  
His Constituents

The Secretary for Ireland Approves of  
Lord Salisbury's Pronouncement at the  
Lord Mayor's Banquet Regarding the  
Irish Question.

London, Nov. 10.—Lord John Morley,  
formerly Chief Secretary for Ireland,  
spoke tonight at Montreal, Scotland,  
which district he represents in the  
House of Commons. In the course of  
his speech he expressed his approval  
of Lord Salisbury's statement at the  
Guildhall banquet last night regarding  
the practical settlement of the  
Irish question. He said he did not  
believe that there was any international  
discussion of more importance, not  
even that regarding the eastern question,  
than the one relating to permanent  
settlement between Great Britain and the  
United States.

The statement was greeted with  
cheers by the audience.

Continuing, Mr. Morley said he trusted  
that the two nations, who are far  
apart, would be able to settle the great  
military question in a thoughtful and  
practical manner in this matter a splendid  
benefit came.

Turks in Asia Minor Plunder a Village,  
Kill a Hundred People and  
Burn the Place.

London, Nov. 10.—A despatch from  
the United Associated Press' representa-  
tive in Constantinople says that a  
series of attacks on the city of Asia  
Minor, Asia Minor, state that a band  
of Turks have plundered the village of  
Kashan, killing one hundred of the  
Armenian inhabitants, and setting fire  
to the village. The news is confirmed

## FARMING WORLD

## MILKING AND CARE OF MILK

Strong, Practical Advice to Farmers  
For Best Methods.

Comparatively few dairymen, says  
H. L. Grier, in the Brooklyn Gazette,  
succeed in realizing that milking is a  
trade. Kindness, gentleness, and  
patience must be observed, and all  
the milk must be secured. The cow  
must be kindly treated at all times.  
She cannot be a part of her feed, but  
she must be treated as a human being.  
She is a creature of great intelligence

### HISTORY REPEATING ITSELF.

Some fifty-odd years ago Dr. Lardner, an eminent scientist, was loaned to the government which he scientifically proved that the project of navigating the Atlantic ocean by steam was impossible; but his dictum had scarcely been the light of the project, which he had condemned as chimerical, had become an accomplished fact. Thus, Dr. Lardner's own denied the foregoing statement as to his late father, when it was repeated at the meeting of the Colonial Institute in London, England, last summer, by Mr. Sanford Fleming; but the general consent too tardily to meet with denial of acceptance.

### MR. A. CAMPBELL DROWNED.

A well-known and respected citizen of Lakeport fell off the pier in a boat. Our usually quiet citizen was startled by the sudden announcement of the death of Mr. A. Campbell, a well-known and respected citizen, who was drowned in the harbor. It appears that Mr. Campbell had been out for a short time, and was returning home. He was seen by a number of people, and was thought to be in the water near the shore of his own property. The body was recovered, and was found to be that of Mr. Campbell. The cause of the accident is not yet known.

### A TARIFF BILL NECESSARY.

Senator Sherman has a new measure. He has introduced a bill for a tariff on certain goods. The bill is necessary, as it will protect our industries from foreign competition. It will also increase the revenue of the government. The bill is expected to pass the Senate.

### What the Poll Tax Is for.

Constantinople, Nov. 11.—The receipts from the poll tax in the city of Constantinople are being used for the improvement of the city. The tax is a small amount, but it is necessary for the government to collect it. The receipts are being used for the construction of new buildings and the improvement of the roads.

The vein can be traced for five  
miles on the surface and has a very promi-  
nent appearance. Some samples of ore have  
been taken from the vein and sent to an  
analyst to be tested.

Mr. Addison Graham, of Tread, who met  
with the misfortune of losing his leg at  
the Toronto Union Depot in September and  
who has been in the hospital there ever  
since, arrived home on Saturday. He has  
now, and is now able to walk about with  
the aid of his crutches. Some fifty of his  
friends met him at the station. He has  
amputated about half way above the knee  
joint.

## A Large Building Burned - Narrow Escape From Destruction.

MADOC, Ont., Nov. 13 - Fire broke out in  
the frame buildings belonging to A. B. Hill,  
on the corner of Durham and Main  
Sts., early last night, and notwithstanding  
the fact that the fire engine was at work in  
a few minutes after the alarm was given,  
the nature of the building was such that  
the firemen could not get at the fire to put  
it out.

By eleven o'clock the block was burned to  
the ground.

Arthur Heyrich, painter, and two of  
his children had a narrow escape from  
suffocation.

The buildings, which were insured for  
about \$1,200, were the oldest in the vil-  
lage, having been built in 1872 by the pre-  
sident owner's father.

## \$15 Overcoats For \$10.

It is very seldom that you are able to get  
\$5 off an overcoat, often there is a pretense  
that such a reduction is being made, but  
certain houses we received at the Oak  
Hill early in the season, a line of fine Irish  
overcoats to sell at \$15. They have no  
high collar and have not moved fast  
enough to suit us. We can't afford to keep  
so, so they go for \$10.

## REVISING THE CATECHISM

Committee of the Methodist Conference  
have about completed a Task.

The committee appointed by the Method-  
ist General Conference to revise the catechism  
has been meeting in Victoria College  
during the past few days and will probably  
present a report for presentation to the  
next conference. The amendments made are  
more verbal ones and consist of alterations  
and simplifications with the object of  
rendering the book more attractive to  
the young people of the church. The  
committee, which was presided over by Rev.  
Dr. Gorman, General Superintendent, is  
composed of Dr. Barnhart, Dr. Caldwell,  
Dr. Withrow, Dr. Potts, Warring,  
usely, Richard Brown and Albert Ogden.

## Can Rheumatism be Cured?

The application of Nervine - nerve pain  
killer - has been found to be a most effective  
remedy over all nerve pain, goes greatly to  
show that it can. Nervine acts on the nerves,  
softens them and gives pain out, and in this  
way gives relief. Try it and be convinced.

## A HUNTER'S BAD LUCK.

Bridge Breaks and Dogs and Little  
Lost.

Mr. Thos. Fraser, Division Court Clerk  
at Newmarket, recently secured being downed  
on Saturday Hill last Saturday evening.  
On Saturday morning last Mr. Fraser left  
with canoe and dogs for Coe Hill, from  
which point his outfit was to be conveyed  
to Mr. Garrett's, LaValley, where the  
hunting party of walkmen, Norwood  
and Ottawa quailmen intended passing  
the deer hunting season. Mr. Fraser  
went with the canoe and dogs to make  
preparations. Everything went along  
smoothly until the wagon was passing  
over a bridge stretching over the neck of  
LaValley lake. The bridge is a simple  
structure that was erected some years ago,  
and when the load reached the centre,  
the bridge gave way, and men, gunnys,  
dogs, and dogs fell into the lake below.  
The dogs, being valuable hounds,  
and prized by Mr. Fraser, were tried to  
waggon and they could not be saved. Mr.  
Fraser also lost a valuable rifle. Nearly  
everything else of value was saved. It was  
an experience that Mr. Fraser will not soon  
forget.

## Coal Oil.

Fire has not interfered with it. All  
the coal oil in the city is now being  
sold. L. W. Yeomans & Co., Bel-

## A Happy Evening.

The 27th anniversary of the organization  
of the club of the Methodist Sunday  
School, was celebrated last night by a  
reunion of the members of the class and  
many of their friends. Each member  
of the class having the privilege of in-  
viting one guest, over two hundred persons  
were present and enjoyed as happy an  
evening as could be imagined. The merriment  
embraced all the delicacies of the season and  
was evidence of the culinary skill of the  
entertainers. After it had been discussed  
of some time was spent in a conversation.  
Then followed the following programme:  
Address by the chairman, the Rev. C. E.  
McIntyre; vocal solo, Mr. Beatty, of  
Toronto; piano, Miss Wigham; Althea  
Clayton, vocal solo, Mr. W. B. Smith,  
London; vocal solo, Miss Belle Holton,  
Quincy; vocal solo, Mr. Eaton,  
Albert College; Piano duo, Miss Wilson  
and Professor Gough; address, Hon. Sir  
St. Mackenzie Howell; vocal solo, Mr.  
Stofford, Albert College; vocal duo, Miss  
Belle Holton and Mr. Eaton. On behalf  
of the guests Messrs. Wm. Johnson and  
J. F. B. Pitt expressed their thanks for  
the invitation to be present and for the  
pleasures of the evening.

## POISON

### A SPECIALTY

For many years, the industry has known that the only way to protect your horse from poisonous plants is to keep him away from them. But now, thanks to the efforts of the American Horse Council and the American Veterinary Medical Association, a new line of products has been developed to help you protect your horse from poisonous plants. The new line of products is called "Poison Prevention" and it includes a variety of products that can be used to protect your horse from poisonous plants. The products are designed to be used in a variety of ways, including as a spray, a paste, or a powder. The products are designed to be used on a variety of surfaces, including the horse's body, the horse's feed, and the horse's environment. Stomach problems are cured by Hood's Sarsaparilla. This it accomplishes because of its wonderful power as a blood purifier, Hood's Sarsaparilla cleanses and strengthens the stomach and digestive organs, invigorates the liver, creates an appetite, gives refreshing sleep, and restores the health. Thousands of dyspepsia and indigestion cases seem to have "a magic touch."

"For over 12 years I suffered from a

with severe pains across my shoulders and great distress. I had violent nausea which would leave me very weak and faint, difficult to get my breath. The stomach often grew more severe. I did not receive any lasting benefit from any medicine. I was very nervous and irritable, but found such happy relief from a trial of Hood's Sarsaparilla that

do all my own work, which for six years I have been unable to do. My husband and son have also been greatly benefited by Hood's Sarsaparilla—for pains in the back, and after the grip, I am now recovered this grand blood purifier. Recommend this Hood's Sarsaparilla to all who suffer from blood impurities.

The Department of Trade and Commerce has received an interesting report from the Hon. Consul at San Pedro de Rivas. He points out that there are great possibilities for Canadian trade with that island, although a drawback is excessive rates of freigh

Canadian emigrants who recently were arrested in the United States. Canadian agents, the same ones who have been sent to Halifax to Porto Rico as far as 1,000 miles, are now in New York, and a regular line of steamships will be run between Halifax and Porto Rico. The Canadian government has good reason to believe that the United States will not build up a good trade with the United States. The Canadian government has placed on even terms with the United States.

Sad news is to hand respecting the Canadian emigrants who recently were arrested in the United States. Several of them have died with fever, and two of them, Montrealers, have died. A well-founded suspicion prevails that the British authorities scrutinize letters from the Canadian emigrants who speak of the hardships of these emigrants.

## REBUILDING

The Old and Broken-down  
House.

Keeping the Structure in Good  
Condition.

Filling it with Health, Comfort  
and Happiness.

When a house becomes dilapidated and  
when the possibility of repair is  
remote, it is to be sold for a structure that  
will have health and permanency.

Our bodies, which are properly cared for,  
live long and healthy. The same may be  
said of the rebuilding of a not  
common in time, death surely claims the  
man and woman, and the house is  
removed forever.

Can we rebuild our aged bodies? Yes,  
the work can be done, even though the  
mark of life glimmers but faintly and  
feebly. This work of rebuilding is done  
through the use of Laid's Colony Com-  
pound, that invigorates muscles which  
have become weak to a certain extent.  
This invigorates the body and  
directly on the great nervous system, giving  
strength to every nerve, and giving  
fresh vitality blood, increases weight and  
gives fresh power to every bone and  
muscle.

When this is accomplished by Laid's  
Colony Compound, it is easy work to keep  
the old body in good condition. Ordinary  
work and general life will surely keep  
up the good work. Then will the old  
man or woman be filled with true health,  
happiness and joy, and you will be  
worth living.

Will you, dear reader, rebuild your  
broken-down body? Yes, you can be  
rejuvenated by you if you use Laid's  
Colony Compound. No physician  
can give you the health and vitality  
no heavy bill to meet after you are made  
well and whole. The work has been done  
for thousands of others, and you have  
your share of the good that it bestows!

## Amusement Notes.

TO-NIGHT.

Harry Lindley, a favorite in this city,  
will play a new company last evening  
opening at the Carman Opera House.

The attendance was good, and the  
service was excellent. The "Two  
Orphans," was well-entitled and equally  
well-received. All the parts were well  
played, the leading character being taken  
by Mr. Lindley and Miss Eliza. The  
specialties by Miss Maudie Davidson, com-  
ing to-night the pleasing comedy, "The Circus  
Girl," will be produced, and an evening's  
enjoyment is store for those who attend.

Popular prices 10c and 15c.

Good News From South Dakota.

The glorious results of this season's har-  
vest of golden grain will pour a stream of  
money into the pockets of every  
Dakota farmer.

South Dakota has thousands of acres of  
choice farming land and much land lying  
idle, and within one year the  
richness of the soil will be made  
more brought reasonably cheap, but which  
before the end of another year may be  
advanced in price.

The farming industry in South  
Dakota is profitable, and Dakota capital is  
being lavished in cattle and sheep growing  
in that state.

Diversified farming, the growing of live  
stock, and the growing of grain, are  
the three main industries in the  
South Dakota, and the three main  
industries in the South Dakota.

## U. S. ELECTION AFTERMATH.

THE DEFEATED CANDIDATE'S AD-  
DRESS TO HIS THROAT.

What the Placard Portends of the Results  
of the Recent Presidential Election—  
A Wonderful Prediction—Wonderfully  
Fulfilled.

The hundreds of the nominations of  
William J. Bryan, the defeated candi-  
date for the Presidency of the  
United States, and William M.  
McKinley, President-elect, and which  
have been in his hands since the  
day last, have proved themselves to  
be really wonderful predictions. With-  
out the aid of any other means, the  
reading of the placard should be  
believed or attempted to believe in  
the wisdom of the election of McKinley  
in view of the election of McKinley  
of the recent results of the recent  
election. It is therefore not  
surprising that the placard of McKinley  
is so implicitly believed in the  
country, they claim to be the  
best and most accurate of all  
the placards of McKinley, and  
perfect law of action and reaction, in  
which the election of McKinley is  
the result of the election of McKinley  
and the election of McKinley is the  
result of the election of McKinley.

**SPECIFIC FOR SCROFULA.**  
"Since childhood, I have been  
afflicted with scrofulous boils  
and sores, which caused no terrible  
suffering, but were so annoying  
to help me, and I only grew worse  
under their care.  
At length, I began  
to take  
**AYER'S**  
Sarsaparilla,  
and very soon grew bet-  
ter. After using  
half a dozen bottles  
I was completely  
cured, so that I have not had a boil  
since you can see my body  
for the last twelve years. I can  
cordially recommend Ayer's Sarsaparilla  
as the very best blood-purifier  
I have ever used." — G. T. RYERSON,  
Meyville, Texas.

Another pleasing feature of the evening was the eloquent and forcible sermon given by the Rev. W. K. P. Wilson, in which he "Incarnate God." His discourse was attentively listened to and made a deep and lasting impression. He was converted in White's Church, and at the age of 14, during his father's pastorate, and spent his boyhood days among us. Let any farmer study these official figures carefully and he will soon see that

little dependent we are now on the States

for a market for all our live cattle, beef,

hutter and cheese. Out of every \$124

\$123 worth and the States just one dollar

The official figures show that the States

looked now at the official figures of what we

imported in these lines during the same

year and paid out our money for, and note

where that money went.

From G. B. From U. S. From All

Canada.	U. S.	All
Cattle.....	5,607	102,000

Butter.....	3,411	97,802
Cheese.....	3,411	97,802
Cattle.....	5,607	102,000

Examined these figures carefully and he will

see that for every dollar's worth of the

line of product Canada found a market for

in the States, they found a market for

seven dollars' worth here. And yet we are

still being told that the United States is

"natural" market for our cattle, beef,

hutter and cheese, and that it would help

"enrich our country" to throw down just

such products! Will it enrich our fac-

tory to discriminate against England,

our best customer and our faithful ally and

protector, and throw down all present pro-

tective barriers against those now feed-

ing our markets, and allowing us to

sow the seeds of our ruin? Hastings coun-

ty is credited with 16,000 head; Prince Ed-

ward with 10,248, and Northumberland

with 17,640. According to the same re-

port 40,346 horses were sold in the prov-

ince during the year. Hastings county

Prinse Edward 415; Northumberland

According to the Dominion Trade

Navigation returns there were during that

year 14,744 head of all kinds of cattle

from the Dominion, valued at \$1,312,673.

Of these there went to

During the same year we imported, for

general purposes, horses from the

British, valued at \$7, and 1,000 from the

States, valued at \$108,700. A little study-

ing of these figures will show the farmers

which country now offers them the most

favorable and profitable market for their

horses.

HOGS AND PORK.—Hog raising and pork

are becoming important and profitable lines

of business to Canadian farmers, but it is

evident they will only continue so long

as our present protective duties are ac-

cording to the Ontario Statistical Report

there were 1,299,072 hogs of all sizes in

the Province last year. That was an in-

crease of about 150,000 since 1890. Hastings

County reported 36,000; Prince Edward,

1,198; Northumberland, 34,446. During

the year 1,159,992 were sold, but the

aggregate price was not given.

turns there was exported from Canada dur-

and their products, and in part to the

No matter where plants grow, how unfavorable the conditions may be, they manage to adapt themselves to circumstances. Excepting the plants of the tropics, which are not in the zone where vegetable life does not exist, there are, in Florida, and in all the arid and semi-arid regions of the world, tremendous breakers roar and crash against the rocks they wave away, and the waves are so high that the foam of waters across of a marine plant which rises from the bottom of the ocean, and is imbedded in the ocean bottom. No force which it looks like could move it. It is so hard and so slippery, yet a few of them will support a man, and a horse will jump over them.

In the writing of the sensitiveness of the tip ends of the roots of plants, there is a great deal of external impressions that they are, in reality, nerves, and direct the movements of the various parts of the plant. There is a plant which, by the opening and closing of its leaves, can turn its face to the weather; the compass plant of New Mexico has leaves which are so sensitive that the bewildered traveler can tell from the way it acts, whether the wind is blowing from the great fields of the sensitive plant in

**PLOTTING IN CHILL.**

The British Warship *Wid* was Britain's first of several to be created at San Diego, Cal. Nov. 25—Officers of the British sloop of war *Wid* Swain, which arrived here late on Friday morning of yesterday, were permitted to-day that serious trouble was being experienced by the vessel, and, at the time of the departure of the cruiser, "Duela and personal enmities" were being fanned by the crew. The crew of the *Wid* and the lower of Erzurum were of frequent contact, and the latter were, it is known, where it lay at anchor on the coast of the Gulf of Mexico, plotting from reliable sources that the *Alacranados*, through a pretended collaboration of several of the officers, in reality a fusion of Liberian and American forces, were about to consent to the election of Erzurum, and that the British sloop was in a conspiracy then forming to overturn the Government.

**INTIMATE FOR TYPHOID.**

The German Scientists Have Been Experimenting With an Anti-Toxin and a Vaccine for the Great Epidemic.

Washington, Nov. 29.—United States Consul George Sawyer at Glancianca, and to the Department of State an account of the experiments conducted in a German medical journal by Dr. W. Kalle, two of the most famous bacteriologists in the world, concerning the effect of a number of experiments with a vaccine and an anti-toxin. "If their hopes are justified," says the journal, "the discovery of therapeutics in infectious diseases will be a most important and valuable accession in the domain of medicine."

The typhoid bacillus is largely known to be a very virulent germ, and the fact that they are frequently found in the blood of patients is recognized by authorities on bacteriology. The German scientists, however, discovered it to be greeted with joy, and the future of the human race preserving itself from the deadly disease, particularly in a warlike time, is a matter of the greatest importance.

**IS GETTING YOUNG AGAIN.**

Rev. Mr. Adams is Ninety Years Old, but is getting young again. He is now cutting new teeth and is no longer a baby.

**LAPORTE, Ind., Nov. 29.—A remarkable case of second childhood exists in the little village of Laporte, Indiana, where, according to the reports of the people, a man, who is now in the prime of life, is regaining their erogenic, and a few of his cutting teeth, have been reported, but the reports are not reliable. **H. BARKIN'S BODY AT WILTON.**

Wilton, Oct., Nov. 29.—The body of H. Barkin, who was killed by a fall from a tree into the death of Rev. D. J. Adams, who fell rather suddenly a couple of days ago. He was a member of the church, and was asked for by a committee of the church to fill the vacancy. He was a very strong man, and was the cause of many of the doubts as to the cause of the death of Rev. Mr. Adams. **THESE LEFT BLENHEIM.**

the narrow leather belt. The bonnet is a little different from those that came into fashion the latter part of the summer—very narrow and laid down, so that only about half an inch shows. There are quite the most comfortable and the most becoming worn for a long time, and, best of all, are quite soft, so they do not cut the head. A difference in the color is a little trim of ribbon which shows just where the cuffs join the sleeves—Harper's Bazar.

**Full Sleeves Still Prominent.**  
That the halloo sleeve is dying a hard death is evident from the fact that a difference in the style of the month ago, it is still prominently to the fore in fashionable crowds of well-dressed ladies. The sleeves are made, etc. When one recalls the pleasant memory of the halloo sleeve, it is no longer so to be forgotten by the majority, when the hat had to be adjusted to the shoulders, and the sleeve hanging was put on, the tightness of the sleeve making it impossible to raise the hands; that the halloo sleeve is dying a comfortable style will be allowed to continue. Though in the newer styles of sleeve, one being more worn during the past year or two, it is confidently asserted that there is no hat that fashion will require the very tight and uncomfortable sleeve.

**How Mothers Protect Their Children.**  
In Ireland a belt of a woman's hair is placed about a child to keep him from playing with, and gnawing at, the neck of a new-born child. In Holland, Dutch mothers tie red ribbons around the ankles of their children to preserve them from harm, while Esthonia women attach bits of asafetida to the necks of their offspring.

Welsh mothers put a pair of tongs or a knife in the cradle to insure the safety of their children. The same is done in some of these poorer parts of England. Among some people in the United States, a new-born child is supposed to have tongues better hung than others, while those born at the last of the quarter.
